

TIPS TO KEEP KIDS ORGANIZED

- Teach kids to put an item back where it belongs after using it.
- Keep items where kids are going to use them (toys in the playroom, school backpack near the door for when your child leaves).
- Group like things together to make them easier for your child to find. Label storage containers.
- Take time each week to sort school papers.
- If your child is no longer using something (like a toy or clothing he/she has outgrown), donate it. It's great to give to others!!
- Be sure to get rid of items in your home, if they are broken.

...picture yourself organized...
